ACTION COALITION ON GENDER-BASED VIOLENCE

VISION

Ensuring **legal frameworks** are in place and implemented

All survivors of GBV safely access **comprehensive support services**

Coordinated, scaled-up global action that builds political will and accountability

WHAT NEEDS TO CHANGE?

There is a Gender-Based Violence global emergency.

Women and girls in all their diversity experience multiple and intersecting forms of gender-based violence in their lifetime.

Emerging evidence shows that since the outbreak of COVID-19, reports of gender-based violence against women and girls have increased.

Violence experienced by women and girls is significantly under-reported, only 40 per cent of women who experience violence seek help of any sort and many do not report their experiences to formal mechanism.

GBV against women and girls is deeply rooted in social and gendered norms, attitudes and beliefs.

Patriarchal backlash against women's rights and limited political will hinder change.

An estimated 736 million women - almost 1 in 3 - have been subjected to intimate partner violence, non-partner sexual violence or both at least once in their life.

Almost 1 in 4 adolescent girls aged 15-19 (24%) have experienced physical and/or sexual violence from an intimate partner or husband at least once in their lifetime.
